Cheshire Bridge Design/Build Continues Momentum

Recommendation for contractor award has been submitted

After accepting, reviewing, and evaluating all bids submitted, the City of Atlanta Department of Transportation (ATLDOT) has forwarded a contractor recommendation for the design and rebuild of the Cheshire Bridge over South Fork Peachtree Creek. Bids from prospective contractors were due on February 1, 2022.

The evaluation and recommendation have been completed in accordance with the original procurement schedule. Once the project has been awarded, ATLDOT will announce the selected contractor and share next steps for the bridge design and rebuild.

The bridge has been closed to all modes of transportation since August 2021, when a fire severely compromised its safety and efficacy. Demolition was completed in December 2021.

ATLDOT reminds the public that pedestrians are restricted from entering the bridge construction zone until the demolition and rebuild are complete. For your safety, please do not enter the creek bed, sloping, and fenced off bridge areas on either side of the creek. [Cheshire Bridge Rebuild](#) updates are available on the ATLDOT website (atldot.atlantaga.gov). Stay engaged with ATLDOT on our Twitter feed [@ATLDOT](#), [ATLDOT Facebook](#) page, Instagram channel [@ATL.DOT](#), and [NextDoor](#) platforms.

Sincerely,

Communications Team
Atlanta Department of Transportation
